Eastern Stars Banquet.

Last Friday night the local Eastern Star lodge held a banquet preceding the regular lodge meeting. The affair was held in the new reception hall in the Masonic temple, and the Masons were present as invited guests. A five-course dinner was served to 200. Following the feast the Eastern Star members retired to the lodge room above the hall and held a meeting. The event was the initiation of a number of new members. While the meeting was being held the young people remained in the reception hall and tripped the light fantastic to the music of the large Victrola, which had been installed for use during the banquet.

MOTHERS' AND SONS' BANQUET TOMORROW

It is expected that the mother and son banquet to be held at the Y. M. C. A. tomorrow evening will surpass in attendance any banquet ever held there. Mothers in the city are responding in large numbers and many ladies are volunteering to take boys who have no mothers. The banquet will start promptly at 6:30 and all who plan to attend are urged to be on time.

"The Cold Storage Egg" is not always above suspicion. Popular imagination ascribes great food value to the egg—but it is not a muscle-builder. There is more real body-building nutriment in a Shredded Wheat Biscuit than in the same weight of eggs or beef-steak—and it costs much less. Delicious for any meal with sliced peaches or with fruits of any kind.

Made at Niagara Falls, N. Y.

on time. The board of directors of the local association and members of the boys' work committee are to serve the banquet. The fathers who did the serving last year proved very efficient and mothers urged those in charge of the banquet to try them again. Mothers who are planning to come must have their tickets or hand in their names to the boys' department not later than this evening.

Easy Tricks vs. Real Tests

You've noticed that in demonstrating the average vacuum cleaner, a liberal supply of talcum powder, soda or borax is sprinkled on a piece of carpet. Suction is applied and the surface is cleaned as if by magic.

That is mere child's play—and even a toy sweeper can do it. Don't waste your good money on a cleaner that won't do harder work than that. Apply a real test yourself.

Ask the demonstrator to rub cotton, lint threads, hair and adhering dirt into the rug and then have him pick it up with his sweeper quickly and without juggling with the tools.

Have him rub sand and dirt into the rug so that some of it will sift clear into the body of the rug. Then make him clean it all up, leaving the rug clean.

The HOOVER SUCTION SWEEPER is being demonstrated at our store this week. We have watched it do work no other cleaner can approach.

Now made in four popularly priced sizes.

Think up the hardest test you can—and then come in and put the Hoover to the trial. That's fair isn't it?
